We love technology. And we understand it deeply. This enables us to pioneer ideas and shape strategies that keep our clients, partners and our people ahead of the game. We do this by asking the right questions: why is it this way? How can it be better? Then we explore, challenge, test and learn – continually improving the solutions we implement and the ways we work together. This helps us develop world-class innovations within sustainable mobility, energy and software to power a better future. We are so dedicated to this mission, you can feel it in everything we do.

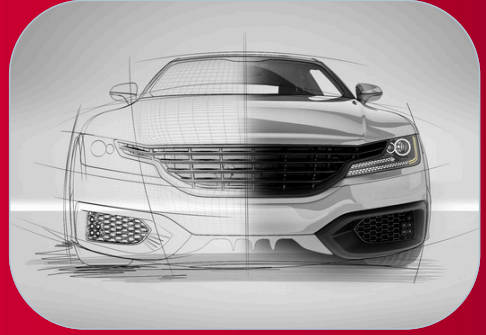

feel evolution

What we do

FEV.io

- Systems Engineering
- Connected Mobility
- ADAS/AD
- SW & E/E Integration
- Functional Safety & Cyber Security
- SW & E/E Platforms
- Infotainment

FEV vehicle

- Vehicle Architecture
- Chassis & Platform Integration
- Class A Styling & Feasibility
- Body in White – Doors & Closures
- Exterior / Interior
- HVAC & Thermal Management
- Vehicle Performance
- Prototype Production

FEV propulsion

- Motor, Hybrid & Fuel Cell Powertrains
- Controls and Calibration
- E-Mobility System
- Battery and BMS
- EDU & Transmission
- E-Drive Components

feel evolution

What we do

FEV energy

- H2 Infrastructure and Electrolysis
- Power-to-X
- Energy Storage Systems
- Charging Infrastructure
- Sustainability
- Heating and Cooling Systems

FEV consulting

- Business Strategies
- Advanced Technologies
- Smart Mobility
- Cost Engineering & Operations

FEV aerospace

- Propulsion systems
- Controllers: Software for propulsion, fuel cells, batteries, E/E
- Software
- Emissions: Acoustics for propulsions, NVH
- Technical services: Thermal management, mission and system analysis
- Consulting

FEV Türkiye Facts & Figures

2011

Founded in
December

500

Highly skilled and
globally experienced employees

7

Offices in 5 cities

25+

Local partner test cells for
e-mobility, vehicle and powertrain

5+

HiL lab, power electronics lab, ADAS
ViL, vehicle workshop

To be the innovation
powerhouse for mobility,
energy and software that
fosters sustainability and a
greater quality of life for all.

feel evolution

and many more ...

At FEV we never stand still and have the spirit to push the limits of technological development. We pioneer ideas and shape strategies that keep our clients, partners and our people ahead of the game. We never stop asking "why?" and evolving our solutions. For a clean and sustainable mobility at the service of society – and our world.

We drive innovation to help the world evolve
