Aachen, February 2025 – Effective February 3, FEV Consulting has appointed Shinya Omori to lead its newly established consulting division in Japan. This strategic move enhances the company’s capabilities and expands its presence in Asia, solidifying its position as a techno-strategic consulting leader.

“We are excited to continue our global growth trajectory and expand FEV Consulting’s footprint in Japan,” said Alexander Nase, Global Managing Director of FEV Consulting. “With Shinya’s extensive experience, we are confident he will drive this important next step in our future development.”

Shinya Omori brings with him a wealth of experience in the global automotive and mobility sectors. Most recently, he led strategic consulting initiatives focused on cutting-edge automotive innovations as President of SC-ABeam Automotive Consulting. Prior to that, he worked with Sumitomo Corporation, a major integrated trading company.

FEV Consulting has established a global leadership position thanks to its strategic and technical expertise, supported by numerous successful projects across a range of industries,

including automotive, aviation, energy, and further off-highway sectors. “Our expertise supports Japan's key economic pillars,” said Shinya Omori. “I look forward to contributing to the country’s continued success and growth through our high-quality consulting services and FEV’s culture of innovation.”

About FEV Group and FEV Consulting

FEV Group is a globally leading engineering provider in the automotive industry and internationally recognized leader of innovation across different sectors and industries.

FEV Consulting, founded in 2011, is the management consulting arm of FEV Group and acts as a bridge between strategy and technology.

The company combines many years of experience in top management consulting with deep product understanding and technical know-how. As part of the mobility and energy ecosystem, it integrates different industry-specific capabilities. This enables FEV Consulting to create sustainable product and strategy solutions for some of the most pressing and complex issues facing today's enterprises.

Core services range from development of business, growth and innovation strategies to technology concept studies, production planning and cost optimization of products and processes. FEV Consulting currently has around 150 employees serving a global client base out of offices in seven different countries – Germany, USA, Spain, France, UAE, KSA, China and Japan.
