Aachen, July 2025 – Effective July 1, Anton Fischer has been appointed Managing Director of FEV.io GmbH. He succeeds Dr. Johannes Richenhagen, who has left the company. In his new role, Fischer is responsible for Sales and Solutions, Business Development and Strategy as well as Marketing. Together with Dr. Martin Müther, who remains a member of the management team, he will drive forward the strategic development of FEV.io. The company bundles the competencies in the field of intelligent mobility and software solutions within FEV Group.

Anton Fischer comes with extensive experience from various high-tech industries, in particular from the aerospace, defense, and automotive sectors. He has been part of FEV etamax since 2011 and continues to serve as its Managing Director. Since etamax became part of FEV Group in 2017, he has been playing a pivotal role in shaping the company's software and verification expertise.

Before joining FEV, Anton Fischer completed an officer's career in the German Air Force and worked for several years as an avionics software developer and team leader at Airbus Defence &

Space. He holds degrees in aerospace engineering and economics.

“I see FEV.io as a key player in the future of intelligent mobility,” said Anton Fischer. “With our expertise in safety-critical software, our industry breadth, and innovative strength, we want to actively shape change – in a customer-oriented, efficient, and sustainable manner.”

With Anton Fischer, FEV.io gains a seasoned leader with deep technical expertise and strategic vision. Under his and Dr. Martin Müther’s leadership, the company will further strengthen its position as a pioneer in intelligent, software-driven mobility and defense solutions – working closely with our customers around the globe.

About FEV

FEV has always pushed the limits.

FEV is a globally leading engineering provider in the automotive industry and internationally recognized leader of innovation across different sectors and industries. Professor Franz Pischinger laid the foundations by combining his background in academia and engineering with a great vision for continual progress. The company has supplied solutions and strategy consulting to the world's largest automotive OEMs and has supported customers through the entire transportation and mobility ecosystem.

As the world continues to evolve, so does FEV.

That's why FEV is unleashing its technological and strategic expertise into other areas, applying its forward thinking to the aerospace and energy sectors. Thanks to its software and system expertise, the company also leads the way making intelligent solutions available to everyone. FEV brings together the brightest minds from different backgrounds and specialties to find new solutions for both current and future challenges.

But FEV won't stop there.

Looking ahead, FEV continues to push the limits of innovation. With its highly qualified 7,000 employees at more than 45 locations globally, FEV imagines solutions that don't just meet today's needs but tomorrow's. Ultimately, FEV keeps evolving – to a better, cleaner future built on sustainable mobility, energy and software that drives everything. For the company's partners, its people and the world.
