FEV Signature Solutions
FEV GenAI Hub

Our GenAI Hub boosts your efficiency and empowers your employees to focus on what truly matters

FEV offers

❯ Advanced AI supported high quality engineering tools for requirement generation, software documentation, test data analysis, and automated HARA/TARA creation

❯ A secure, scalable platform for internal and external deployment, enabling automation and ensuring compliance, either as SaaS or deployed in your environment

❯ Use cases spanning automated engineering workflows, project management, sales and others

Why FEV

❯ More than 20 years of development experience with in-depth domain expertise in the field of artificial intelligence

❯ Extensive experience with generative AI solutions

❯ Tailored services and products to fit your processes offered as engineering service, software-as-a-service, whitebox or blackbox software

We support you on your journey to become AI professionals

AI CUSTOMER JOURNEY

Value growth

PROFESSIONAL
AI is used on a larger scale and embedded in the organization and products

PRACTITIONER
AI Strategy is known, and systematic implementation has started

EXPERIMENTER
Initial impulse, first prototypes are built

NOT STARTED
AI is not on the agenda

Maturity of AI implementation

FEV

- AI strategy
- Use case identifcation & priorization

- Prototype development
- Data engineering
- Governance support

- Industrialization & cloudification of AI products

- Solution maintenance & support

We tailor our services and products to fit your processes and support your 'make or buy' strategic plans
