

For FEV Europe GmbH and its subsidiaries confidentiality, availability and integrity of information are of great importance. We therefore take extensive measures on protection of confidential and sensitive information and have established an Information Security Management System covering headquarter and subsidiaries. In doing so, we follow the question catalogue of information security of the German Association of the Automotive Industry (VDA ISA) and participate in the Trusted Information Security Assessment Exchange (TISAX®).

At FEV eDLP GmbH an information security assessment was performed by an official TISAX® audit provider. The result is retrievable via the ENX portal (<https://portal.enx.com/en-US/TISAX/tisaxassessmentresults>).
