

Reference Number: STS_2022_40

People Lead (m/w/d) Automation-Software, Commissioning and Software-Service

Location:

Germany, Aachen

Worktime:

Full-time

Tasks

You will be involved in the digitization of this industry in what is probably the most exciting time since the invention of the automobile.

- As a people leader (m/f/d) Morphee-Services, you will lead software application-, commissioning-, and software-service-staff in one team with different technology stacks
- You will support the team members in their personal development and assist them in decision-making and change processes as well as in problem solving
- You will assist in searching talents in the application and commissioning area as well as in onboarding
- You promote cross-team exchange and support the communication of company information and management decisions

Qualification

We work in distributed teams, practice remote work and maintain an open communication culture

- Completed training as a technician or studies in the field of computer science / informatics
- Several years of practical experience in managing employees
- Very good knowledge of the German and English language, both written and spoken
- High degree of empathy as well as very good communication skills
