

## Opening of the new FEV location in Munich

**Munich, February 2020 – FEV combines its vehicle development expertise under one roof in Munich. The FEV Group GmbH and its two subsidiaries EVA Fahrzeugtechnik and etamax celebrated the official opening of their joint new location at Ingolstädter Straße 49 in Munich.**

The inauguration took place on February 11, 2020 with about 150 guests including invited dignitaries. Welcome remarks from the City of Munich were delivered by City Councillor Julia Schönfeld-Knor and Economics Officer Clemens Baumgärtner. The event was accompanied by an exhibition presenting technological displays from various areas of Smart Mobility.

The ultra-modern, new building in Ingolstädter Straße covers 5,800 square meters with around 450 workstations.

### **About FEV**

The FEV Group is a leading international service provider for turnkey vehicle development. Its range of engineering competencies includes consulting, development and testing of innovative vehicles and their powertrains from concept to series production. The range of services for propulsion systems include modern, highly efficient gasoline and diesel engines, transmissions, hybrid and fully electric drive systems and fuel cell systems as well as their integration, calibration and homologation into the vehicle.

Further core topics at FEV are alternative fuels, the development of electronic control systems, vehicle connectivity and the automation of vehicles through hardware and software development. The service portfolio is fulfilled by customized test bench and measurement equipment including software solutions that allow essential work stages to be efficiently transferred from the road to the test bench or simulation.

The FEV Group employs more than 6,700 highly qualified specialists in customer-oriented development centers at more than 40 locations on 5 continents.
