

## **Dr. Johannes Scharf appointed Executive Vice President of FEV Europe GmbH - Dr. Tolga Uhlmann takes over as Vice President EU-Gasoline Powertrains**

January 2020 – New responsibilities at FEV Europe GmbH: Since 1 January, Dr. Johannes Scharf has been a new member of the executive board of FEV Europe GmbH in the role of CTO.

After holding various positions in gasoline engine development, Dr. Johannes Scharf was most recently Vice President EU-Gasoline Powertrains, responsible for the European development programs for gasoline engines. He will be succeeded in this function by Dr. Tolga Uhlmann, who was most recently Director Basic Engine Development in the Gasoline Powertrains division at FEV Europe.

"The gasoline engine also offers great potential for increasing efficiency in combination with the electrification of the powertrain," explains Professor Stefan Pischinger, President and CEO of FEV Group GmbH. "Dr. Johannes Scharf and Dr. Tolga Uhlmann will optimally adapt the focus of the developments to the local requirements and boundary conditions in Europe. Thus, we will continue to support our customers from concept to series production as a strong development partner with a high level of personnel competence".

## **About FEV**

The FEV Group, with its headquarters in Aachen, Germany, is an internationally renowned service provider in the area of vehicle development. The skill spectrum of FEV includes consulting and the development and testing of innovative vehicle concepts, all the way up to serial production. In addition to engine and transmission development, vehicle integration, and the calibration and homologation of modern vehicle powertrains, the development of hybrid and electric drive systems as well as alternative fuels is constantly increasing in importance. Another area of activity includes optimizing electronic control systems as well as the increasing connectedness of cars. In this context, one particular focus is the continued development of autonomous vehicles.

The FEV Software and Testing Solutions product portfolio complements this offering by producing cutting-edge test bench measuring equipment in addition to software solutions that help to make the development process more efficient and transfer significant process steps from the road to the test rig – or even to a computer simulator.

As a globally operating service provider, the company offers these services to its customers from the transport sector worldwide. The FEV Group employs over 6,600 highly qualified specialists in modern development centers close to our customers at more than 40 locations on five continents.
